SUMMARY

Innovative Mobile Engineer with over 5 years of specialized experience in the React Native ecosystem. Demonstrated expertise in building scalable architecture and custom native bridges, having successfully shipped 15+ complex applications to the App Store and Play Store. Deeply proficient in TypeScript, CI/CD pipelines, and performance profiling. adept at translating complex business requirements into clean, reusable, and efficient code.

TECHNICAL SKILLS

- **Core Mobile Development:** React Native (Expert), TypeScript , JavaScript (ES6+) , Native API Rendering , Native iOS/Android Modules.
- **State Management:** React Query, Redux, Redux Toolkit , Context API.
- **Native & Hybrid Environments:** Android Studio, Xcode , Expo , familiarity with Java/Swift modules.
- **Data & Backend Integration:** REST APIs, GraphQL (knowledge of), Firebase (Firestore, Auth, Push Notifications) , Social Authentication.
- **Storage & Databases:** SQLite (Offline Storage), Document Request Models.
- **Third-Party Ecosystem:** Stripe (Payments) , RevenueCat (In-App Purchases) , Google Maps API , AppsFlyer.
- **UI/UX & Web Standards:** HTML5, CSS3, Flexbox, Figma-to-Code translation.
- **Development & Professional Tools:** Git/GitHub, Jira (Task Estimation) , Postman , Unit Testing.

PROFESSIONAL EXPERIENCE

SENIOR REACT NATIVE DEVELOPER | PHENTECH PVT

Dec 2023 – Present

- Lead the architecture and development of scalable cross-platform mobile applications using React Native and TypeScript.
- Optimized application performance, reducing load times by 30% through efficient state management with Redux Toolkit and memoization.
- Integrated secure payment gateways (Stripe) and managed subscription models using RevenueCat for In-App Purchases.
- Mentored junior developers and conducted code reviews to ensure high-quality, maintainable codebases.

REACT NATIVE CONSULTANT | NEURAL METRICS PVT

June 2023 – Feb 2024

- Collaborated with UI/UX designers to translate complex Figma wireframes into responsive, pixel-perfect mobile interfaces.
- Implemented real-time features using Firebase and integrated RESTful APIs for seamless data synchronization.
- Managed app deployment processes for both Google Play Store and Apple App Store.

REACT NATIVE DEVELOPER | INFINITYBITS

April 2023 – Dec 2023

- Developed core modules for various client projects, focusing on smooth navigation and offline storage using SQLite.
- Integrated third-party libraries for social login (Google, Facebook) and push notifications.
- Conducted rigorous debugging and unit testing to ensure crash-free application performance.

REACT NATIVE DEVELOPER | ECONCEPTIONS PVT

April 2022 – March 2023

- Developed core modules for various client projects, focusing on smooth navigation and offline storage using SQLite.
- Integrated third-party libraries for social login (Google, Facebook) and push notifications.
- Conducted rigorous debugging and unit testing to ensure crash-free application performance.

REACT NATIVE DEVELOPER | TECHMELO

Feb 2021 – March 2022

- Assisted in the development of UI components and basic navigation flows for early-stage mobile prototypes.
- Gained foundational experience in JavaScript and the mobile development lifecycle while supporting senior engineers.
- Conducted unit testing and bug fixing for Android and iOS modules.

PROJECTS DESCRIPTIONS

- **Konjae:** A high-scale B2B wholesale marketplace application facilitating bulk trade and inventory management.

- **POS (Tablet, Mobile):** A flexible Point of Sale system designed for cross-device retail transactions and sales reporting of restaurant.

- **Abs Timesheet:** An employee productivity tool for clock-in/out management and automated payroll reporting.

- **Orma Planet:** A comprehensive pet care ecosystem comprising Customer and Professional applications. The Customer app enables pet owners to manage pet medical records, book appointments, buy or adopt pets, and discover nearby parks with check-in/check-out functionality. The Professional app allows veterinarians to manage appointments, availability and holidays, define services, and oversee pet shelter operations.

- **Field Services:** An operational tool for workforce management, featuring real-time task assignment and location tracking via Google Maps.

- **Millennium Pharmacy:** A healthcare e-commerce application built to streamline medicine sales, prescription workflows, and patient record management.

- **Educo GYM:** A fitness management app featuring workout tracking, membership tiers, and video integration for tutorials.

- **Amis Choice:** an e-commerce grocery application designed to handle online purchasing, sales tracking, and secure card payment transactions.

- **Toyogo Kiosk:** A self-service kiosk application built to streamline cash-and-carry ordering through an intuitive product selection and order management system.

- **Loot8:** A specialized marketplace app for digital assets and NFTs, focusing on high-fidelity media rendering.

- **OPA Tag (NFC):** A digital networking solution utilizing NFC technology for instant contact and profile sharing.

EDUCATION

- **BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

  Arid Agriculture University

  2017 - 2021
